## Behind the Scenes

I am 38 years old with four children 2 boys and 2 girls consecutively, ranging from the ages of 19 years to 2 years. In August 2007, I started my own debt management consulting business called **Infinite Debt Management Solutions**. Also in October of 2008, I started another business called **Infinite Lee Scents**. It has been very rewarding and fun. I enjoy meeting all the people I have encountered with both businesses. I have also been employed for 15 years with a highly reputable book publishing company in my hometown as a purchasing specialist.

In my spare time (yeah right!) I love to cook, read, and listen to music. I love cooking for large functions as I always end up cooking for my family on Thanksgiving and Christmas. Right now I'm in the self-improvement mode and recently purchased several books related to this. I also have a fetish for shoes and purses!

I have always considered myself to be ambitious and can still envision myself achieving my goals. Family and friends are very important to me and because of this; many of my dreams were

steered in another direction but hadn't lost focus. Since the birth of my last child, I didn't think it would be possible to continue my education. I finally came to the realization that I must keep moving forward despite circumstances and stumbling blocks. This year in October, I will be graduating from the **University of Phoenix** with a **B.A. in Business Management**. Today, I look at these challenges as strengtheners...making me a better person! ~ **Stacie D. Lee**

## At Home Scentpression Parties

**Infinite Lee Scents** has been hosting various **At Home Scentpression Parties** all over town. Locations include Champaign, Urbana, Homer, Allerton and Villa Grove. Some were themed parties such as **Birthdays** and **Girl's Night Out**. These parties are not only entertaining but educational as well. Topics include learning about

base notes and how to properly apply scented products. One of Stacie's favorite games is playing **Scent Bingo**...instead of numbers...scentpressions are used.
